CAREER OBJECTIVE

Software Engineer passionate about building practical and secure solutions. Experienced across technologies including Java, Spring Boot, SQL, and web technologies, with a strong focus on software development and problem-solving. A fast learner focused on building reliable and maintainable applications, while continuously expanding my expertise in backend development, databases, and modern software engineering practices. Eager to grow into Liferay DXP development.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering
07 2023 – 05 2026
Ahmedabad Institute of Technology *Ahmedabad, India*

Diploma in Computer Engineering
07 2020 – 05 2023
Ranchhodlal Chhotalal Technical Institute *Ahmedabad, India*

TECHNICAL SKILLS

Languages: Java, SQL
Core CS: Object-Oriented Programming(OOP), Database Management System(DBMS)
Tool & Methodology: Git, Github, Software Development Life cycle(SDLC), Maven
Backend & APIs : Spring Boot, Spring JDBC, Hibernate, RESTful API Design, Basic of Liferay
Web: HTML, CSS, JS
Database: MySQL

EXPERIENCE

QSpiders
Jan 2026 – Mar 2026
Java Developer Intern *Ahmedabad, Gujarat*

- Learned core Java and object-oriented programming (OOP) concepts, including encapsulation, inheritance, polymorphism, and abstraction, through hands-on coding exercises.
- Practiced writing SQL queries to create, retrieve, update, and delete data in relational databases.
- Used Spring Boot to connect Java applications to databases and perform CRUD operations as part of practical backend development exercises.
- Debugged code and resolved errors while completing practical Java and database-connectivity assignments.

C-DAC PACE ATC - Icon Academy
Nov 2022 – Feb 2025
Lecturer *Ahmedabad, Gujarat*

- Taught Java programming with a focus on object-oriented programming, programming fundamentals, and problem-solving.
- Guided students through hands-on Java coding exercises and helped them develop strong programming skills.
- Explained programming concepts clearly and supported students in debugging code and solving programming problems.

PROJECTS

Adoptify – Animal Rescue & Rehoming Platform
Technologies Used: Java, Spring Boot, HTML, CSS, JS

- Platform connecting animal adopters, owners, NGOs, and admins for adoption and rescue operations.
- Developed using AI-assisted tools for faster coding and debugging.
- Implemented secure authentication, adoption workflow, rescue alerts, and email notifications.
- Designed MySQL database with JDBC for users, animals, adoption requests, and rescue reports.
- Built responsive role-based dashboards using HTML, Tailwind CSS, and JavaScript.

SkillBridge – Internship & Job Application Management System
Technologies Used: Core Java, Jakarta Servlets, JSP, JDBC, PostgreSQL, HTML, CSS, JavaScript

- Developed a full-stack web application connecting students and recruiters for internship and job opportunities.
- Implemented student, recruiter, and admin modules with role-based access control and session-based authentication.
- Built job posting, search, application tracking, saved jobs, applicant management, and interview scheduling features.
- Designed PostgreSQL database and implemented database operations using JDBC PreparedStatements.
- Applied MVC, DAO, and Service Layer architecture for structured backend development.

CERTIFICATIONS

- NPTEL – Python for Data Science [Issued: August 2024]
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional [Issued: October 2025]
